

To procure and distribute corporate surplus food and goods to help fight poverty, hunger and disease in rural communities for those with low resources and in crisis through churches, food shelves and other local civic organizations. To develop the "Blessing Box" concept to activate people in being alert to the needs of others and to be proactive in encouraging, showing friendship and meeting tangible needs of struggling neighbors, friends and strangers regardless of race, religion or ethnicity.

Velocity Telephone

Dear Potential Customers,

I have been a Velocity customer since February of this year and I cannot say enough of how much I love their Virtual Office!! I was given wonderful onsite training with step by step instructions with someone who answered all our questions, even the simple ones with respect and with answers even us who are not very technical would understand. I use my fax option off my computer almost daily without having to have a separate fax machine anymore. And I can control who has access to incoming faxes so confidential matters stay confidential.

All I have to do to change employees or set up hold music is easily done online with just a few clicks of the mouse, it couldn't be easier.

Velocity Telephone even went out of their way to provide service in Wisconsin in our warehouse in Waupaca. The last thing I wanted was to have to gather quotes from other companies but Jim went above and beyond customer service. I was so relieved I am able to only have one provider for the service I love.

Now calling our warehouse is like we were on separate floors of the same building!! I highly recommend Velocity Telephone and I am positive you will not be disappointed.

Erin Skalicky
