Residential Features

Velocity Telephone, Inc.

Home, Apartments and Condominiums

STANDARD FEATURES

Big 3 Features include: Standard Voice Mail, Caller ID (Name & Number) and Call Waiting Caller ID.

Voice Mail - A standard voice messaging system you access via your telephone.

Caller ID (Name & Number) - Allows you to view information (telephone number and caller name) about incoming calls (through use of a caller ID device) before picking up the phone.

Call Waiting with Caller ID - When you're using your phone and you get an incoming call, you'll hear a Call Waiting tone to let you know someone is trying to reach you. Bundled with Caller ID, it will also display information about the caller before you pick up.

ADDITIONAL FEATURES

3-Way Calling - Speak with two different people at the same time.

900/976 Restriction - Blocks 1-900 and 1-976 numbers from being dialed on your phone line.

Anonymous Call Rejection - Automatically rejects incoming calls from people who block their number.

Call Forward - Our call forwarding features will allow you to forward a call to an outside number, based on the incoming call, or when your phone line is busy or not answered.

Distinctive Ring - Allows up to three distinctive ring patterns to know who is calling before you pick up the phone. If you do not have a distinctive ring telephone number(s), one/they will be provided for you.

Find Me/Follow Me - Find Me/Follow Me is a call forwarding feature that allows an incoming call to be redirected to another telephone number before prompting the caller to leave a message.

In Bound V-Fax - In Bound Fax will create a file (pdf) from an incoming fax and email that file to a specified email address(es). If you do not have a fax number, one will be provided for you.

Internet Voice Mail - Internet Messaging will create a sound file of a message that is left on your voice mail and email that message to your email address(es).

Non Published Number - Customer's name, phone number and address listing is omitted from the phone book and is unavailable through directory assistance.

Out Bound V-Fax - Out Bound Fax will allow you to send a fax using your computer through use of our V-Fax software.

Remote Access Forwarding - A call forwarding feature that permits a telephone number to be redirected to any other telephone number remotely. You will have a security code created for you to access the call forwarding feature from any phone.

Speed Dial - Allows you to dial frequently called telephone numbers by dialing a one or two digit (1-30) code in place of the entire telephone number. Available for up to 8 or up to 30 telephone numbers.

Selective Call Features - Our Selective Call features allow you to accept, reject, forward or trigger the call waiting tone for telephone numbers you program.

LONG DISTANCE

Included in all phone bundles - Inter-state long distance billed at 3.9¢ per minute. Intra-state long distance billed at 5.9¢ per minute. International long distance rates vary based on country called, please contact us for exact pricing.
